

Cable HT aluminium A-series

The A-series high voltage electric fencing insulated cable is used as a lead out cable from your energizer to the fence and for all other insulated high voltage transmissions. It is used with a range of aluminium alloy wires and galvanised earth spikes.

Features:

- Ideal cable when aluminium wire is used
- Low electrical resistance reducing power and voltage drops over large distances
- The 3 core A-Series reduces installation time.

Specifications:

Material:

UV stabilised double insulated cable

Aluminium/alloy inner conductor

- single core HT cable -1.6mm solid inner conductor

- 3 core HT cable - 1.6mm stranded inner conductor
